

Professional Summary

Results-driven Data Science professional with a strong foundation in Automobile Engineering and a recent MBA in Data Science. Intentionally pivoting career from engineering to Data science and AI. Demonstrates 2 year of engineering experience and a proven ability to leverage Python, Machine Learning, and analytical problem-solving to drive innovation in data-driven and AI systems. Eager to apply technical and analytical expertise to deliver impactful solutions in the Data Science & Analytics domain.

Professional Experience

Lecturer · Nirmala Institute of Technology

Ernakulam, Kerala, India · Jun 2025 - Present

- Developed Excel-based analytical tools to monitor and track student academic performance, enabling data-driven decision-making and improved results.
- Created an automated analytics system for analyzing and documenting course files, increasing accuracy and documentation efficiency.
- Recognized for implementing innovative data analysis tools in academic processes, delivering accurate insights and actionable reports.

Service Engineer · TVS Mobility Pvt Ltd

Ernakulam, Kerala, India · Feb 2024 - Jan 2025

- Managed preventive and corrective maintenance for passenger vehicles, ensuring 95% SLA adherence.
- Utilized SAP HANA for service management, tracking over 1,000 service records and optimizing service delivery processes.
- Led warranty claim processing and dispute resolution, achieving a 20% improvement in claim turnaround time.
- Enhanced customer satisfaction by improving service delivery touchpoints through analytical tracking.

Projects

Customer Churn Prediction

An Analytical Framework for Loyalty Vision Analytics ·

Oct 2025 - Dec 2025

[Python](#) [KNIME](#) [Tableau](#) [MS Office](#) [Machine Learning](#)

- Developed a machine learning model to effectively predict customer churn, enabling proactive customer engagement strategies and reducing attrition rates.

Carbon-dioxide Emission Control Using Calcium Hydroxide

Bachelor of Technology · Jun 2022 - Jul 2023

[Automobile Engineering](#) [Data Analytics](#)

- Designed and implemented a carbon-dioxide mitigation system using aqueous calcium hydroxide to convert exhaust CO₂ into stable, non-toxic calcium carbonate, contributing to environmental sustainability.

Achievements

2nd Rank in Bachelor of Technology

APJ Abdul Kalam University ·

Jun 2019 - Jun 2023

Awarded All Kerala Second Rank for Bachelor of Technology in Automobile Engineering.

Certificates

Generative AI For Learning And Development

LINKEDIN LEARNING · 2025 - 2025

Building AI Products: Understanding the Workflow

Data Science · Master of Business Administration
JAIN (Deemed-to-be University), Bangalore, Karnataka
Jan 2024 - Present · 9.0

Automobile Engineering · Bachelor of Technology
SCMS School of Engineering and Technology, Ernakulam, Kerala
Jun 2029 - Jun 2023 · 8.4

Position Of Responsibility

Judge
Nirmala Institute of Technology · Aug 2025 - Aug 2025
Invited as Judge for Cultural Competition

Event Controller
SCMS Institute of Road and Safety Transportation ·
Jan 2013 - Jan 2023
Volunteered and conducted hands-on training sessions for female drivers on four-wheelers.

General Captain
Gurusree Public School · Jun 2017 - Jun 2018
Managed school inter and outdoor sports activities, and organized festive and official gatherings.

Extra-Curricular Activities
Participated in district-level indoor games competition.
Participated in district-level outdoor games competition.
